ADMINISTRATIVE INFORMATION:
Class Meetings:  M/W 11:30am-1:00pm  (Weill 1220)
Office Hours:  Mondays 1:00-2:00pm, Tuesdays 10:30-11:30am & by appointment (Weill 3234)

COURSE DESCRIPTION:
This advanced seminar challenges public policy majors to consider how policy issues are framed and
addressed in a non-US setting. Specifically, students will focus on Costa Rica, studying three
contemporary policy challenges in light of the country’s political, economic, historical and cultural
context. The winter break study tour will provide students an opportunity to deepen their
understandings, including through discussion of the policy issues with local stakeholders. Upon return,
students will work in groups to complete poster presentations and to produce short, formal policy
reports. The policy issues for 2020 all relate to Costa Rica’s long-standing commitment to sustainable
development. They will focus on Environmental Education, National Parks, and Roads/Infrastructure.

COURSE OBJECTIVES:
• Develop an understanding of how policy issues are framed and addressed in a small, democratic,
  middle-income country, also enriching understandings of policy issues in the US and other
country contexts.
• Learn how to approach a new policy issue. Key steps will include gathering and organizing
  relevant (quantitative and qualitative) information, formulating questions, and deciding whom
to approach for insights and how.
• Enhance oral and written presentation skills – through in-country interviews with stakeholders,
  and intensive group preparations of an oral policy briefing, a poster presentation and an in-
depth written report.

STUDY TOUR BASICS:
• Flight Details (Delta Airlines) Depart Friday, February 28, Return Saturday, March 7.
• We will spend the first night near the airport, 3 nights in Monteverde and 4 nights in San Jose.
• In-country activities and expectations will be discussed in detail, with written information
  posted in Canvas.

COURSE REQUIREMENTS & GRADING:

January 7, 2020

**Attendance and Participation:**
Although I will lecture at times, this will predominately be a discussion-based class. The goal is active participation from all class members. Thus, each of you is expected to complete assigned reading material in advance, to attend class, to stay ‘on-topic’, to consider comments made by others, and to share discussion time. Active engagement in group projects and activities is also expected. Please contact me (by email) in advance, or as soon as possible, if you have to miss class. A make-up assignment may be required for missed classes, and multiple unexcused absences will harm your grade.

COURSE READINGS & Associated Reading Journal Entries

Required readings are listed in the READINGS section below. Most readings will be available as files posted to our course Canvas site, on-line (see links in the Syllabus page of Canvas), and/or on reserve in the Ford School Reading Room.

You will be expected to complete Reading Journal Entries for a number of the readings - denoted (RJ), and in bold - in the first half of the term. These will be due in CANVAS no later than midnight, the night before class. Those marked (RJx2) are more extensive and worth twice the credit. Because they are preparation for class discussion, RJ assignments will not be accepted after the relevant class has started. (See Canvas for details and some examples. We will also discuss RJ entries during the first few classes to ensure that the assignment expectations are clear.)

Discussion questions are provided to structure your reading and help you prepare for each (pre-trip) class. More information about how to prepare for post-trip classes will be provided well in advance.

Readings for the 3 Projects: See ‘Projects’ page for some initial readings for each policy topic. Project groups will be expected to seek out additional materials as part of their research. I will work with each group to assist them with this and other project related tasks.

News articles will also be assigned as required readings, some requiring journal entries. In addition, students will be expected to stay up-to-date with current events in Costa Rica, by reading/skimming one or more of the Costa Rican news sources regularly. Here are three news sites in English:

– Costa Rica Star https://news.co.cr
– Tico Times http://www.ticotimes.net
– American Expatriate Costa Rica http://usexpatcostarica.com

In addition to articles on economic & political issues, current events and your group project area, you are encouraged to look for articles on topic of special interest to you (Sports? The arts? Etc.)

- Project Assignment 2 (Group) Structural Analysis – DUE February 16 Sunday (11:59pm)
- (RJ) Select one of the additional readings you completed for your Policy Overview

February 10 (Mon) Eco-Tourism; Writing a CRS-Style Policy Report; No Reading Journal Entries

For class discussion: In the first half of the class will focus on complexities and experiences related to Eco-tourism (See the piece by Honey). The remainder will focus on writing a CRS-style policy report. Review the assigned materials and compare them for style and content. What are the weaknesses of the “Eco-Tourism” article? Compare its structure and type of content to the three CRS reports. Scan these to reflect on the kind of information they contain. They are NOT about Costa Rica. In many ways CRS reports set the bar for a high-quality policy brief (and may help you see what you should be aiming for as a policy professional). What insights can be gained from the way these reports are structured, and the way the content is presented? Again -- We will NOT be discussing the content – just the structure. If you learn some things about US policy & context, consider it a dividend!

- “Eco-Tourism in Costa Rica.” (Article to be Critiqued, after reviewing CRS report)
- CRS reports to skim:
  - CRS, “Rural Highways,” (July 5, 2018)
February 12 (Wed) **Required Trip Orientation** [Note that the date for this may change]
Orientation Readings will be added.

After an initial discussion of Monteverde’s history and context, much of the class will be working sessions with each group related to their Structural Analyses.
Readings:
- (RJ) Vivanco, Luis A.  *Green Encounters: Shaping and Contesting Environmentalism in Rural Costa Rica.* (Berghan Books, 2006) (pp. 54 – 59); pp. 60-63 and 162-180
