

# CURRICULUM VITAE

**Full name:** FAUSTINO SIMÃO LESSITALA

**Contact:** +258 82 153 8453 / [lessitalafaustino@yahoo.fr](mailto:lessitalafaustino@yahoo.fr)

**Place and date of birth:** Tete – Mozambique / 23 March 1981

**Actual residence:** Beira, Mozambique

## WORK EXPERIENCE

### **POSITION 1: Field Research Associate under a contract with the University of Michigan**

Impact Evaluation of an Orphans and Vulnerable Children Project, Beira  
From June 2016 to present

#### **Main responsibility:**

- Coordinating the field implementation of an impact evaluation of the Orphans and Vulnerable children project in 3 target provinces: Manica, Sofala and Zambézia (2016-to present)
- Coordinating the field implementation of COVID-19 Response Survey for Mozambique, in charge of recruitment, training and supervision of data collection staff (2020-to present)
- Liaising with several stakeholders of the project, such as: Local project implementing partners, beneficiary community members, Government authorities.
- Liaising with the Mozambican IRB for study protocol approvals.
- Leading enumerators training and data collection.

### **POSITION 2: Research coordinator**

International Centre for Reproductive Health (ICRH), Tete-Mozambique  
From August 2015 to May 2016.

#### **Main responsibilities:**

- Coordinating the implementation of several components of an impact evaluation of Reproductive Health Services for Female Sex Workers in Tete, Mozambique. I addressed to the Mozambique Ethical Committee objections until the approval of the study protocol and I took the lead in the data collection, supervising the research team members and making sure the timeline was respected. My Terms of References include participating in data collection, data analysis, report/publication writing and in the dissemination of the findings.

### **POSITION 3: Research officer**

International Centre for Reproductive Health (ICRH), Tete, Mozambique  
From December 2012 to August 2014.

#### **Main responsibilities:**

- Implementing a Study protocol on “the determinants of use and access to maternity waiting homes” using mixed methods approach. I took the lead of all the phases of the study, namely: Data collection; Data analysis and Report writing.

- Taking a lead as a local coordinator in the implementation a “situational analysis study protocol on use, access and satisfaction of sex workers with existing sexual and reproductive health services”. This was a multi-country study involving partners from India, Kenya, South Africa and Mozambique and it is part of DIFFER (Diagonal Interventions to Fast-Forward Enhanced Reproductive Health) Project. I played a key role in two big study components, namely: an Integrated Biological and Behavioural Survey (IBBS) and Focus Group Discussions. I gave inputs in the report writing and I am a co-author in a submitted article for publication of the findings.

#### **POSITION 4: Research assistant**

Médecins Sans Frontières, Tete-Mozambique

From May 2011 to December 2012.

I was involved in two studies:

1. A qualitative study to evaluate the relevance, dynamic and impact of a new HIV care model called Community ART Groups (CAG model) on patients, their communities and the healthcare system in Tete Province, Central region of Mozambique. As research assistant I performed several tasks:

##### **Main responsibilities:**

- Translating of the training contents from English into Portuguese and doing presentations during the training sessions with the research team members;
- Monitoring the participants recruitments;
- Supervising moderators, notetakers, interviewers and transcribers in conducting Focus Group Discussions and In-depth interviews;
- Qualitative data analysis using NVIVO software;
- Leading the research team in the absence of the senior researcher.
- Co-authoring 3 scientific publications of the research findings

2. Explorative study on utilization of and barriers to HIV and MCH Services among Community ART Group members and their families.

##### **Main responsibilities:**

- Moderating focus group discussions
- Participating in data analysis and dissemination of the results in collaboration with senior researchers;
- Co-authoring a publication on the research findings.

#### **POSITION 5: Intern**

Hospital Geral José Macamo, Maputo

From July to December 2010.

As a student in the last year of the Psychology course, I did my internship in the Hospital Geral José Macamo which consisted in a psychological counselling to people infected and affected by HIV.

## **EDUCATION**

**MASTERS IN PUBLIC HEALTH** (option: Health Systems management and policies) at **Institute of Tropical Medicine (ITM) – Antwerp – BELGIUM.**

From September 2014 to July 2015

**BACHELOR IN SOCIAL AND ORGANIZATIONAL PSYCHOLOGY** at **Universidade Eduardo Mondlane, Maputo – MOZAMBIQUE**

From February 2007 to December 2010

### **OTHER SKILLS**

#### **LANGUAGES:**

PORTUGUESE: BILINGUAL

ENGLISH: Full professional proficiency

FRENCH: Full professional proficiency

CHINYANJA/CHICHEWA: Native

### **PUBLICATIONS**
