

CLASS OF 2018 POST-GRADUATION PLANS MASTER OF PUBLIC POLICY AND MASTER OF PUBLIC ADMINISTRATION

EQUIPPED FOR IMPACT

Why do employers see Ford School graduates? For their ability to solve tough problems. Our students are prepared to analyze and evaluate policies, measure impacts, size up opinions, and lead - using an approach that integrates an understanding of political and regulatory environments with a full toolkit of quantitative and communication skills.

Our graduates work across all sectors, applying their skills to the world's most complex problems, including health care cost containment, education reform, energy planning, national security, poverty alleviation, and urban revitalization.

EMPLOYER QUOTES

“Mathematica Policy Research recruits Ford School graduates because we need people with a strong analytical skill set, collaborative style, sound quantitative background, and good awareness of public policy challenges and initiatives. Ford School graduates have the drive to conduct rigorous, objective research to improve public well-being.”

Mary Harrington (MPP '89)
Vice President and Director of Health Research, Mathematica Policy Research, Inc.

“Policy research and program evaluation demand an interdisciplinary skill set that allows an analyst to think critically and solve challenges strategically. Ford School graduates possess the data analysis, strategic planning, and policy development skills that are essential for the work we do. These skills, combined with a passion for social and policy issues and a commitment to the people and programs they affect, make the Ford School an obvious source for high quality staff and leadership”

Christie Peters (MPP '90)
Director, Healthcare Access and Coverage, Office of the Assistant Secretary for Planning and Evaluation
U.S. Department of Health and Human Services
